# THE SPANISH FLEET USELESS ARE BOMBARDING MANILA DEWEY WINS GREAT VICTORY

## American Commodore and His Sailors Disable Every Ship at The Island and Are Now Pouring Shot Into The Capital City.

Early reports concerning the brilliant victory of Commodore Dewey's fleet at Manila are fully substantiated by the later news. Spanish officials admit that their fleet was rendered absolutely useless. The American vessels are now engaged in pouring shot and shell into the city. The sailors "remembered the Maine" with a vengeance.

Not one American vessel was lost in the engagement.

Dispatches from the British consul at Manila confirms the news of the American victory. The Spaniards scuttled three of their ships to prevent their capture by the Americans.

### DEWEY'S MEN

#### "REMEMBER THE MAINE."

Madrid, May 2—Special—Early dispatches from Manila say the population is fleeing from the city. The Spanish Admiral acknowledges that his fleet has been completely demolished. The British consul at Manila had a conference with Dewey, but the object of the interview is unknown. The Spanish are furious over the defeat and are beginning to show discontent. Martial law will be proclaimed if hostile acts occur.

London, May 2—Special—Official dispatches from Madrid still claim that the battle of Manila was not decisive, but they now admit that the Spanish fleet was practically destroyed.

A dispatch to the Daily Mail says the American fleet is now moving on Manila, but there has been no capitulation as yet.

A late dispatch from Madrid says the Spanish ministers now admit the utter defeat of the Spanish fleet. Besides the Reina Maria Christina and Castilla, which are wholly lost, and the others which were run ashore to prevent their being captured, the ships remaining afloat, are so badly damaged, as to render them valueless for fighting purposes.

#### Bombardment of Manila.

Paris, May 2—Special—Advices just received state that Manila is being bombarded.

London, May 2—Special—The colonial office received a dispatch this morning stating that Admiral Dewey had called upon the governor of the Philippines to surrender, and the governor refused to do so. Thereupon Admiral Dewey notified the governor that he would bombard the city.

#### Still In Spanish Hands.

Washington, May 2—Special—The cable from the Philippines is still in Spanish hands, and until it is wrested from them, no official message can be sent by Admiral Dewey except by steamer to Hong Kong or Singapore. If Dewey should occupy Manila, the navy department will be immediately notified.

#### Sunk to Prevent Capture.

Madrid, May 2—Special—A dispatch from Manila says in yesterday's engagement three Spanish vessels were sunk in accordance with the admiral's order to prevent their capture by the Americans.

#### Confirmed by British Consul.

London, May 2—Special—The British consul at Manila has telegraphed to the foreign office a confirmation of the destruction of the Spanish fleet.

#### Suffered No Loss.

London, May 2—Special—Late dispatches confirm the statement that not one American vessel was destroyed.

### WASHINGTON

#### GOES WILD

#### AT THE NEWS

Washington, May 2—Special—The capital is literally wild with joy over the American victory and there is great rejoicing among the people. No official news has yet been received, but will be tomorrow. Commodore Dewey undoubtedly at once sent a dispatch boat to Hong Kong with a message. The trip would take two days, so news may be received late tonight, but probably not until tomorrow. The officials have no doubt of the truth of the reports received, however.

Key West, May 2—Special—News of victory at Manila was received by the squadron here with cheers this morning. The opinion of officers is that Spain's backbone is broken.

### BREAD RIOTS IN ITALY CHILD DRANK POISON

Spanish-American War has Caused a Rise in Prices of Bread Stuffs.

Rome, May 2—[Special]—Bread riots are reported from many Italian cities, and the reserves will be called out. The Spanish-American war has caused a rise in the price of bread. Six persons were killed and many injured in Sunday's riot.

#### YOUNG MEN WERE PATRIOTIC

Timely Exercises at the Y. M. C. A. Rooms Yesterday

A rousing patriotic meeting was held at the Y. M. C. A. building yesterday afternoon, and one hundred and fifty-two persons attended. Dr. J. B. Whiting presided, and in his usual pleasing and inspiring way delivered an excellent address, taking for his subject, "The Soldiers of '91." Capt. Edward Ruger took part in the program, delivering a speech that will not soon be forgotten by those present. He took for his topic, "Volunteers of '98."

Senator Whitehead spoke on "Patriotic People," John T. Atkinson, assistant secretary, gave a thrilling farewell talk, and J. H. Nicholson read a poem. Rev. A. C. Kempton and Rev. Mr. Newcomb led in prayer.

#### GONE TO JOIN HER HUSBAND

Mrs. Hanson Will Accompany the Captain to the Front.

Mrs. Charles L. Hanson, wife of Captain Hanson, of the Light Infantry, will join her husband this week at Camp Harvey, Milwaukee, with the intention of remaining with him till the end of the war.

In anticipation of his wife's visit Captain Hanson has secured rooms near the camp, where they will remain as long as the troops are stationed at Camp Harvey.

Mrs. Hanson believes that she has nothing to fear in the way of danger, and will probably leave Janesville on Wednesday.

Young Son Of Henry Tower, Of Beloit, Swallows a Fatal Dose.

Beloit, May 2—[Special]—The two year old son of Mr. and Mrs. Henry Tower secured a bottle of carbolic acid yesterday, and drank two teaspoonfuls, which caused its death in a few hours.

#### PLANS DRAWN FOR CHAPEL.

City Missionary Mary Kimball's Building Will Soon Be Erected.

Plans have been finished by local contractors for the proposed chapel to be added to the mission home owned and managed by City Missionary Mary Kimball on South Jackson street. The structure will be fifty-six feet long by twenty-four feet wide, and will cost about \$1,000.

An auditorium and a Sunday school room will occupy the entire addition, which will be one story high. Mrs. Kimball says that Mayor Thoroughgood thinks well of the plan, and has pledged money for the good of the cause. Other public spirited men should follow Mayor Thoroughgood's example.

It is expected that the chapel will be erected this summer.

#### HAS GOT A NEW SECRETARY

The Y. M. C. A. Has Secured the Services of C. H. Gilbert

C. H. Gilbert, of Clinton, is now assistant secretary of the Janesville Y. M. C. A. and this evening he will enter upon his duties. There is little doubt but the board here have made a wise selection. He was former assistant secretary of the Clinton association, and has also attended Beloit academy and the Chicago training school.

Mr. Atkinson, former assistant secretary, resigned his position to enlist in the local militia.

We have a new and handsome rig called the 100; simply a beauty, fitted with the Brady shaft couple. Your orders will receive prompt attention, F. A. Taylor & Co.

### IS OUR FLAG UP

#### ON THE STAFF

#### AT THE ISLAND?

Washington, May 2—Special—A statement of the situation at Manila was sent to the state department today by Ambassador Hay. He said the British foreign office had been notified by the British consul at Manila that Admiral Dewey had ordered the Spanish authorities to remove the torpedoes from the harbor and surrender the town.

He gave them until daylight to think the matter over and assured them the city would be shelled unless it was surrendered.

It was reported at the state department this afternoon that the Americans had taken Manila.

London, May 2—Special—It is believed here that Admiral Dewey has Manila completely at his mercy, and that none of his ships suffered serious damage.

London, May 2—Special—It is reported here that the Spaniards have cut the Manila cable.

#### To Land In Cuba.

Washington, May 2—Special—It is admitted in army circles here that a force of at least 6,000 fighting men will be landed in Cuba not later than Thursday of this week.

The landing place is kept secret for obvious reasons, but it will doubtless be at some point where a junction can be formed with the insurgents under Gomez.

#### The Losses At Manila.

London, May 2—Special—The report from Madrid that the American fleet retired after yesterday's battle is ridiculed. A Madrid report places the Spanish losses at Manila at four hundred dead.

#### Tried to Poison a Cistern.

Tampa, May 2—Special—Rumor comes from Port Tampa that a Spaniard was caught trying to poison a cistern at the camp and was court martialed and shot.

#### Pestilence and Famine.

Kingston, Jamaica, May 2—Special—Reports from Manzanillo say that pestilence and famine prevail. The Spanish officers are inciting violence.

#### Will Engage In Privateering.

Madrid, May 2—Special—Spain is now considering the arming of privateers and will send out a great fleet to attack American shipping.

#### Deficiency Bill Passed.

Washington, May 2—Special—The house this afternoon passed the urgent deficiency bill for the support of the volunteer army.

COUNSEL FROM  
THE WISE MENWORDS SPOKEN FOR THE  
OLD AND YOUNG.

Rev. W. A. Hall Continues His War Parables With Peaceful Lessons—Mr. Kempton Speaks of the Beautiful Life—Patriotic Services at the Congregational Church.

Rev. W. A. Hall continued his "War Parables" discourse at Court Street M. E. church last night. The red, white and blue festooned the space above the rostrum, and was tastefully draped about the pulpit. The gathering was large; the attention given the speaker was very good. Mr. Hall said in part: "I have no apology to make for having these flags in this place. True love of God means large love for man. Who loves God most loves man most, and who loves man most loves country most. Religion is the mother of that patriotism that is profoundest and most lasting." Washington was religious; Grant prayed constantly to God; Lincoln believed in Divine guidance. The church and the school are the highest, broadest and most impregnable of all the bulwarks of our nation. Let these go down, and the nation has surely fallen.

What a sight that was when our boys left for the camp at Milwaukee! Janesville streets were ablaze with our colors. The air shook with music and cheers. Tears, "God bless you," and shouts, almost a frenzy of patriotic feeling; this was the order of the hour. And now see, the train is pulling out. No, it stops. Now it goes on again. Yes, it bears them away, and Janesville goes back in sorrow and in pride to its homes. There on that train was loyalty. Loyalty under slouch hats and in rough uniform, but loyalty never the less.

Mr. Hall then told of a song he heard by the young people in Redlands, California, when Frances Clark was there. A part of the words were: "Tis loyalty, loyalty, loyalty to Christ." O that we could be as loyal to Christ as those boys to their country. True, whatever the cost; faithful even unto death. That is the only loyalty that will stand the test. With such loyalty we would sacrifice and die.

Mr. Hall then spoke of the ubiquity and alertness of the press. Reporters are on all the warships. How accurately and fully the account of the attack on Matanzas was given. We can see the puff of smoke, hear the deep tone of the great gun, see the dust rise in the air as it strikes. We admire the precise work of our gunners. So Christians should watch. Our enemy comes in so many guises. We should be alert for opportunities to do good. God in every moment offers some lesson or chance of service. Are we quick to see it?

The speaker next touched on the blockade of Cuba. Blockade, if kept up, is a species of conquest. It conquers not by the clash and crash of contending forces, but by shutting off all supply. If it is long continued it will starve the Spaniards into surrender. They must have food to live. Sometimes a tumor or extraneous growth, where it can be reached is starved out by cutting off its blood supply. That is the way God would have you "mortify your members, which are upon the earth—fornication, uncleanness, inordinate affection, evil passion and avarice, which is idolatry." How mortify them? By setting up a blockade, by keeping away those things on which they feed. Indecent pictures, lascivious articles, plays with situations and scenes provocative of lust. By consulting in your thought to dwell on those things, so with avarice. Dethrone money from its chief place. By the grace of God defeat this or it will defeat you.

He spoke of the feeling of dread and uneasiness everywhere in this country. We have no question as to outcome; we know our God is with us, because our cause is just. But while this is true war is a great disturbance, and we wish it would cease. But if there is dread and uneasiness, what must be the feeling in Spain? The warships in white were a symbol of peace. The same vessels in black, stripped of everything graceful and airy, are a symbol of war. War is a black thing. So with the soul at variance with its Maker. There cannot be peace. He is like the sea; never calm.

Why did not Spain except of the terms by which peaceful settlement might be made, and the great cause of justice and humanity still be satisfied? A false sense of honor kept her from it. She couldn't stoop to such a thing. Why does not the sinner accept of the efforts of peace a loving God holds out? A false sense of pride keeps him from it. To give up to God, to yield completely to Him? O no; he cannot do that. And so disaster and disturbance temporal and eternal follow.

Mr. Hall spoke for some time on white peace and black war. Christ will bring national peace and peace to the heart of man. He spoke of

malaria in Cuba, an unseen force yet mighty as an army. So there are forces unseen which we contend with. But we have unseen helpers and the unseen God is on our side if we are on his side. He will give us sun bright victory.

## THE WORLD BEAUTIFUL.

Discourse by Rev. Mr. Kempton at the Baptist Church.

Mr. Kempton's subject for yesterday morning at the Baptist church was "The World Beautiful." His text was in Eccl. 3-11.

This is May Day although it may not be a typical May day. May we worship him aright. Nature is everywhere making this world beautiful. We must have the thought of the beautiful in our hearts if it would see the beauties of nature. Is this world to you the world beautiful? If so you are on the road to perfection. If you are unable to see beauty in the world there is something wrong with you. What we see depends upon what we are. If our heart is right we shall see beauty everywhere. If the heart is wrong we cannot see beauty in the grandest scenes on earth.

There are those who are over looking backward to the golden days of the past. To them there is nothing so today that compares with the past. Another class is constantly looking forward. Nothing of today is beautiful or just right to them. Let us not be like either class, for now is the world beautiful. Notice some of the conditions of living in this world beautiful. A man must live a beautiful life if he would see beauty. The first condition for living in a world beautiful is that we must have hopefulness. We must have Christ with us if we would succeed in being hopeful and see things beautiful.

The second condition for seeing things beautiful is, we must have love in our hearts. If we have hate in our hearts we will see only that which is hateful.

The third condition of seeing beauty is faith. If we have no faith we shall have nothing beautiful. We must have faith in our God, our fellow men and in all things if we would live in a world of beauty.

In the evening the Y. P. S. C. E. had a large patriotic meeting led by Mr. Bates. Special music was given, and there was a very interesting session. Mr. Kempton's evening subject was "Past Feeling." A large after meeting was held at the close of the service.

## PATRIOTISM TO THE FORE.

Services At the Congregational Church Last Evening.

At the Congregational church yesterday, the pastor, Rev. R. C. Denison, preached in the morning on "The Significance of the Lord's Supper," it being the day for communion service. The lesson of his remarks was that there was no mysterious meaning attached to the ceremony—that in it the soul should draw near God, should feel his presence, and know how much the sacrifice on Calvary could mean to him.

The evening service was patriotic in its spirit, the pastor speaking from the theme, "The Interpretation of the Flag." Two beautiful flags were hung on the walls of the church, having been presented by one of the church members. The sermon by the pastor was a history of our national banner; its purity, staleness from wrong and injustice to be oppressed. Hitherto it has stood almost solely for unity and fraternity, and among the American people now there is an old glory in its significance. Now it says that from the frozen north to where the waters break around lonely Cape Horn there must be no tyranny over a downtrodden people.

The singing of patriotic music greatly aided the character of the service.

**BETTER FIGHT SPANIARDS**  
Correspondent Gives Advice by Two Local Street Bravoes.

EDITOR GAZETTE.—While passing the Myers House I saw two young men who had just been examining each other's physiognomy with more force than either artistic ability or mentality. My heart bled for their youth whose time has been so wasted by bringing up such sons.

The smaller of the two was respectfully dressed in light clothes, and presuming from his appearance in the twilight, I should think he would be unable hereafter to judge of odors as his nose seemed pretty evenly distributed over the middle of his face. The other was larger, dressed in dark clothes, which were bespattered with dirt, staggering and falling, while the crowd standing around seemed highly entertained.

It seems too bad that those young men, with all who are like them, should not, or do not promptly apply their belligerency to the Spaniards, thereby making good use of what is otherwise a curse. Perhaps if they had gone to Milwaukee with the militia they might not have weakened when it came to actually enlisting as twenty of them did. M. K. H.

A Hundred Reasons Can be given why Stuart's Dyspepsia Tablets are the best and most effective cure for every form of indigestion.

They are in tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to the taste. After each meal dissolve one or two of them in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous product of fermented, half digested food.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting food-forming foods.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy, the successful physician of today is the specialist. The successful medicine is the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 50 cents per package.

### EXCURSION TRAINS PACKED.

Every State Honors the Brave Men Who Have Responded to the Call of President McKinley—Thinking Out the Banks of Indiana Troops.

Camp Tanner, Springfield, Ill., May 2.—One hundred thousand visitors crowded Camp Tanner Sunday, the great majority of whom came from abroad, many attracted by a desire to see a great military camp, but most to bid good-by and Godspeed to some boy in blue whom they may never see again. The excursion trains from nearly every portion of the state, all heavily laden, and in many instances in from one to half a dozen sections, began rolling into the city early in the morning and continued to come till well along toward night.

The work of mustering into the United States service has already begun. The force under command of the surgeon general will be increased to the extent necessary to facilitate the work to the fullest, and it is expected the command will be turned over to Ensign Sam within a fortnight. If the number excused from each company because of physical disability is sufficient to warrant, an attempt is to be made, it is said, to keep up the national guard by organizing those rejected into companies and regiments on the lines of the present establishment. This scheme does not find much favor with the authorities, and, except by those actively engaged in pushing the propaganda, is looked upon as a dream.

### IMMENSE CROWD IN CAMP.

From Fifty to One Hundred Thousand Visitors at Indianapolis.

Indianapolis, Ind., May 2.—Nearly all of the fifteen railroads centering here brought excursion trains in Sunday loaded down with the relatives and friends of the soldiers. The crowd is said to be the largest ever assembled in Indianapolis, variously estimated at from 50,000 to 100,000. Certainly so numerous an assemblage never before gathered at the state fair grounds.

The event of the day was the battalion drill in the evening. So large a body of soldiers has never been together here since the war. Every man able to be out was in this dress parade. There were four full regiments and three batteries of artillery present, more than 5,000 altogether, and the various evolutions were greeted with immense applause by the large multitude.

Divine services were held by the chaplains of the various regiments at the usual hour for worship Sunday morning. The very best order prevailed throughout the day.

The news of the great naval victory over Spain was bulletined in the camp and received by the soldiers with holiday cheers.

Under the order of Gen. McKee, issued Saturday, that men who did not intend to volunteer should go home, about 300 were sent out Sunday. According to the count there are still 4,400 men in camp.

### Cheer Wisconsin Soldiers.

Milwaukee, Wis., May 2.—Camp Harvey, at North Greenfield, was visited Sunday by at least 10,000 people. Neither the rain nor the fog deterred the masses from rushing on the electric railway, and extra passenger trains were in operation all day on both the St. Paul and Northwestern lines. Nearly a dozen special trains over the St. Paul, Northwestern and Wisconsin Central lines brought in more than 4,000 people from all parts of the state.

The examination of the men will not begin before Wednesday.

Good-By to Michigan Boys. Detroit, Mich., May 2.—All railroads in this state led to Island Lake Sunday, and Michigan paid her fare well to see to her regiments in camp there. From Detroit alone 10,000 persons took advantage of the excursion to say good-by to their loved ones. The gathering was augmented by from 5,000 to 7,000 persons from other quarters of the state.

Town People Visit the Camp. Des Moines, Iowa, May 2.—Twenty thousand people were in the camp at the Iowa State Agricultural society fair grounds here Sunday. The railroads give official reports that 19,048 people came here on excursion tickets. Enough people to swell the number of visitors to 20,000 came with teams.

Watch the Nebraskans Drill. Lincoln, Neb., May 2.—Ten thousand visitors from all parts of Nebraska witnessed the drilling at Camp Saunders Sunday. Orders are completed for moving the troops to Omaha today.

A little boy asked for a bottle of "get up in the morning as fast as you can." The druggist recognized a household name for "DeWitt's Little Early Return," and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles. People's Drug Co.

Port Worth, Tex., May 2.—News reaches here from Belcherville that there are 1,000 or more Delaware Indians in the country between Deep Red and Cash creeks, about twenty-five miles from that place, and from what can be learned, their intentions are not good, as they seem to be forming an alliance between the Comanches and Apaches. These latter are said to be in war paint and are practicing the tomahawk drill.

Eight Killed in Iowa Storm. Sioux Falls, S. D., May 2.—The tornado which swept across southeastern Dakota and northwestern Iowa Saturday night killed a number of people in this state and wrecked a great amount of property. The death loss is eight, and the property loss exceeds \$100,000.

GIVE THE CHILDREN A DRINK. It is a delicious, appetizing, nourishing food drink, the place of coffee, sold by all grocers and liked by all who have tried it because when properly prepared it tastes like the finest coffee but is free from all injurious properties, it aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about 14 as much as coffee, 15 and 25c.

YOU CAN'T EXPLODE IT THE INSURANCE Gasoline : Stove!

A. LONG . FELT . WANT

The Smallest child or the most careless person cannot have an accident in any way, shape, or manner with the Insurance Gasoline Stove. It is just what its name implies. It insures perfect safety. It does not burn gasoline, but the gas from gasoline. The burner is heated and lighted by an asbestos torch and must reach a certain degree of heat before an automatic shut-off opens and admits the gas so that it lights. The "Insurance" is the only stove in which there is any provision made to cut off the supply of gasoline should the burner be accidentally exploded or carelessly left open.

The moment the flame is extinguished the burner commences to cool and shuts off the gas automatically. At no time is there gasoline in any part of the burner for a chance matcy to ignite. ■ ■

You Can't Explode It While Filling It,

BECAUSE an inner tank must be removed and turned bottom side up before it can be filled, so that in an unthinking moment the gasoline can is not brought too near the forgotten lighted burner. Insurance Gasoline Stoves must be seen to be fully appreciated. There are too many superior points to tell about in this ad. Once seen if you have gasoline experience you will swear by the Insurance.

## ALLIANCE WITH ENGLAND.

The events of the past few weeks indicate strongly the possibility of an offer of an alliance from England at no very distant date—perhaps before the present war is ended. Just what kind of a proposition is made—if any—remains to be seen, but that England desires an understanding for mutual benefit with us can hardly be doubted.

That an alliance that would benefit the United States can be made, is unquestioned, and it is equally true that an agreement could be entered into that would injure this country. Therefore, if the offer is made, great care should be exercised in agreeing to terms. Such an alliance would place the control of the world, practically, in the hands of the two great English speaking nations, and compel ignorance and barbarism to take a seat still further back. It would be a step forward for civilization, and would mark one of the most important epochs in the world's history.

But on the wording of the agreement by which the two countries agree to stand by each other, all would depend, as neither should receive an undue advantage, nor be required to make material concessions. The alliance would be of great benefit to us, to "our English cousins," and to the world at large, but it should be of the right character. It should embody the recognition of the Monroe doctrine—when promulgated—perhaps arbitration of other differences between ourselves, and the understanding that the two countries are to join forces when an attack on one means an injury to the people, the government, or the trade of the other.

It need not be a complicated document, but a simple agreement which can be embodied in one hundred words. A simple announcement, or rather even a vague understanding, that England and the United States had formed an alliance would send all Europe into sudden retirement for meditation.

What nation would dare to awake the wrath of either Uncle Sam or John Bull with the realization that it meant the combination of the "Star Spangled Banner" and "Rule Britannia" as a battle hymn?

In time of peace neither country needs the assistance of the other, so the agreement need not cover times of peace, but in time of war, is it not appropriate that the two great English speaking nations should "get their backs together" to fight the common foe?

The idea of an alliance with England will be repugnant to many, but they should not let their patriotism blind them to the fact that an agreement can be made by which both nations will gain, and neither lose.

We have always looked askance at England, but now that she has shown a genuine friendship for us, why not meet her half way? She is our natural ally, not our natural foe, and if he speaks in good will, we should listen.

## TWO LOCAL SOLDIERS.

There is much speculation among Janesville people as to the assignment of General Thomas H. Ruger, retired, as General Ruger is a Wisconsin soldier who entered the civil war from Janesville. Though on the retired list, he has offered his services to the government, and will probably get a good command on account of his good record during the war of the rebellion and since that time. General Ruger was retired for age last April, but he is still in prime health and capable of efficient service. He resides in New York. The war record of General Ruger is a fine one. He graduated at the West Point academy in 1854, and resigned from the army the next year. In June, 1861, he was commissioned lieutenant colonel of the Third Wisconsin Infantry, became colonel two months later, brigadier general of volunteers the following year, received the brevet rank of brig-

adier general in the United States army for gallant service at Gettysburg, and was made major general of volunteers in 1863 for his conduct at the battle of Franklin, Tenn. After the war he was commissioned colonel in the regular army and was promoted to brigadier general in 1886. When he was retired last April he was in command of a department.

Many Janesville people are of the opinion that either Gen. Ruger or Lieut. Col. Randall should command the Wisconsin troops.

Gen. Charles A. King will get a commission, and is likely to command the Wisconsin regiment, and if Gen. Ruger or Col. Randall cannot be assigned to the Wisconsin brigade, Gen. King is the best man in the state for the position.

The Dane county authorities are to be congratulated on the speed with which justice was meted out to two brutal murderers who killed Mr. and Mrs. Andrew Nelson, of Black Earth, for \$3. The men—William Bestor and William Fuller,—were arrested; pleaded guilty; and placed in Waupun for life within thirty hours after the horrible crime was committed.

The Hon. Bob Fitzsimmons has adopted the suggestion made to him by The Gazette some time ago. He has at last succeeded in getting his name in the papers again, by saying that he is ready to enlist whenever the country wants him.

Milwaukee, in these piping days of war, is becoming a very orderly city. For the first time in fifteen years, no prisoners were taken to the House of Correction from the police court, on Saturday.

Surgeon General Sternberg, of the regular army states that no surgeons are needed in the service, unless they are impervious to yellow fever. No nurses are needed at present.

The Gazette is proud of its telegraph service. During all the war excitement, not one "fake" has been received.

Anxious and Constant Reader—The police will appear in uniform for the first time, two weeks from yesterday, Sunday, May 15.

Portugal has issued a neutrality proclamation, but—

The regular monthly meeting of the Rock County Medical society, which was to be held on Wednesday evening of this week, has been postponed till Friday evening of next week, May 12, on account of the meeting of the State Medical society at Milwaukee which begins on Wednesday, continuing three days.

## THE PRESIDENT WILL WAIT.

Plans Contemplating the Landing of a Large Force on the Island Have Been Changed—Supplies for the Starving Are to Be Sent at Once.

Washington, May 2.—The president has directed that the orders for an invasion of Cuba be countermanded. This information comes from a high official of the government, and can be accepted as trustworthy. The change of plans has been caused by representations made to the president, but it is impossible to ascertain what they are. It has been suggested in navy circles that the occupation of a base of supplies in advance of the definite location of the Spanish fleet which left the Cape Verde islands might prove a poor strategic move, and this argument may have been used. While the president is said to have postponed indefinitely the forward movement for the occupation of Cuba, he has not altered his determination to hasten supplies for the relief of the suffering reconcentrados, and the Red Cross steamer State of Texas will be sent to Matanzas or some other port near Havana at once, under the convoy of battleships, and a landing will be attempted, with a guard of marines to protect the supplies.

Nine nominations to be major generals will be sent to the senate very soon. The list decided upon by the president is as follows: From the army, W. R. Shafter of Michigan, John J. Coppinger of New York, Henry C. Merriam of Maine, and James F. Wadsworth of Ohio; from civil life, James H. Wilson of Delaware, Joseph Wheeler of Alabama, Fitzhugh Lee of Virginia, George R. Snowden of Pennsylvania, and Charles F. Roe of New York.

## AIMED AGAINST SPAIN.

Government of Newfoundland Declares Coal Contraband of War.

St. John's, N. F., May 2.—The governor, Sir Herbert Murray, has issued a royal gazette extraordinary containing the following proclamation, received from Joseph Chamberlain, imperial secretary of state for the colonies:

"No coal shall be supplied to any belligerent ships, except for the specific purpose of enabling them to proceed to their own country or to some other named neutral destination, with reference to which the supply of coal is given. Coal should not be supplied at all if there are reasonable grounds for supposing that it is in fact to be used for another purpose."

The proclamation is regarded as preventing the Spanish fleet from securing coal here for an attack on American coast cities.

## May Deport All Spaniards.

Washington, May 2.—While the Spanish government is preparing to send all Americans out of the country President McKinley is considering a proposition to deport all Spaniards, as he has a right to do. A French ship will arrive at New York in a few days with a number of Spaniards on board, and the immigration commissioner has given orders to have them detained. It is not because the president wants to shake revenge on the few Spaniards in this country, but there are a number of Spanish spies here, and it is considered just as well to get rid of them. So all the Spaniards will probably have to go.

## War Sentiment in Mexico.

City of Mexico, May 2.—The government cautioned all employed to observe, in act and conversation, entire neutrality regarding the American-Spanish war. The masses of the people are undoubtedly for Cuba, but the liberal papers are for Spain, and it is suspected that Spanish influence is actuating their policy, so distinct from the liberal party leaders. The clerical papers are naturally hostile to the United States.

## Are Massing at Santiago.

Kingston, Jamaica, May 2.—Advices received here show that the Spaniards have abandoned Carmano, Jigari, and other important interior cities in Eastern Cuba, and are concentrating at Santiago. The rebels have taken possession of the abandoned towns. The insurgent leaders in Eastern Cuba are urgently appealing for food.

## To Bombard Seaport Towns.

Paris, May 2.—The *Reclair* remarks: "An autonomist deputy from Havana to the Spanish chamber says the Spanish squadron which has just left St. Vincent contemplates the bombardment of an American port. It is not likely that there will be a fight in Cuban waters, Havana being amply fortified to resist the American fleet."

## May Shell Havana and Matanzas.

Atlanta, Ga., May 2.—The *Journal's* correspondent with the fleet telegraphs that an officer of the Puritan says Matanzas is to be attacked again Tuesday and the Red Cross steamer with provisions landed immediately thereafter. It is also stated from another source that Havana will be shelled at the same time.

## More War Ships for Spain.

Madrid, May 2.—It is reported the government has purchased two foreign warships.

It is said that a new Spanish ironclad, which is being fitted out at Carthagena, will soon join the Spanish squadron at Cadiz.

## No Intervention by Germany.

Berlin, May 2.—A German official connected with the foreign office states that German intervention, even in an extreme case, is not to be thought of. It would be possible, he said, only if certain complications in the east should arise.

**Saw No Warships.**  
New York, May 2.—The French liner steamer *La Bourgogne* which arrived Sunday morning from Havre brought \$27,000 francs in specie. During the voyage not a single vessel of warlike appearance was sighted.

**To Guard Powder Mills.**  
Wilmington, Del., May 2.—At 5 o'clock Sunday morning batteries G and M, Fourth artillery, U. S. A., arrived at Mount Chanin, a small station near the Dupont powder works, via Wilmington, to act as a guard for the powder works.

**Cruiser Topoka Arrives.**  
New York, May 3.—The United States cruiser *Topoka*, formerly the *Diogenes*, commanded by Lieutenant J. J. Knapp, which sailed from Falmouth, England, April 19, arrived safely in port Sunday, after a rough passage of twelve days.

**Jealousy of America.**  
London, May 2.—The *Times* says it believes that there is a certain risk that the development of the war in the Philippine islands will be followed by an accentuation of the jealousy of the American policy which is shown by continental papers.

**Move on the Canaries.**  
Madrid, May 2.—A report which could not be verified is in circulation here to the effect that the British channel squadron is going to the Canary islands.

**Spies Execution Is Reported.**  
New York, May 2.—A special from Key West says that Jose Yglesias, who was charged with plotting to blow up the Puritan, has been executed.

## Austrian Ship for Cuba.

Vienna, May 2.—The Austrian cruiser *Maria Theresa* has been ordered immediately to Cuba to protect the interests of Austria-Hungary.

**Pass the Deficiency Bill.**  
Washington, May 2.—Chairman Cannon of the appropriation committee will to-day report favorably the army deficiency bill, which amounts to nearly \$35,000,000, and will try to have it passed at once. This bill is to cover the expenses of the new army for the next two months, but a large part of it represents expenditures which are for clothing the army, purchase of ammunition, and other like items that must be authorized at this time in preparation for war materials which will not be delivered for several months.

**Stop that cough.** Take warning. It may lead to consumption. A 25-cent bottle of Shulton's cure may save your life. For sale by People's Drug Co.

**Gladstone Is a Little Worse.**  
London, May 2.—A bulletin issued last evening states that there was no material change in Mr. Gladstone's condition during the past week. The local disease made some progress and occasionally the patient suffered pain.

**Kant's Clover Root Tea** for constipation. It's the best, and if after using it you don't say so return the package and get your money. For sale by People's Drug Co.

**Lowell has sold hardware** for thirty years in the city of Janesville.

**Powers Hiding Their Time.**  
Paris, May 2.—The *Temps* says it believes that the powers are hiding their time for intervention in the Spanish-American dispute.

## Spanish Fleet Destroyed.

Lisbon, May 2.—Reliable news has been received here that the Spanish fleet was completely defeated off Cavite.

is certainly the most comfortable, well-looking and serviceable fabric for a man's summer suit, but it is a troublesome fabric to the tailor. It has "ravelly" tendencies which baffle the skill of any but first-class experienced SERGE TAILORS. The serge suits in our store bearing our label, and which we sell at \$15, are made by the most experienced serge tailors in America, and are so constructed that no seam can ravel or stretch, and the garment will hold its shape under all circumstances.
